DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Devlin et al. US Pat. 5,605,466.

Devline teaches a socket assembly with a cord sorter, comprising:

a multi-socket unit (please refer to fig 1) having a plurality of sockets 30; and

a sorter 32 constructed at the front of the socket unit for collecting cords engaging with the sockets.

Regarding claim 2, the sorter is a hollow shell having a first opening (inner side of the opening 66; by 34b) and an opposing second opening (outer side of the opening 66; by 36b), where the first opening is capable of sleeving onto the socket unit (closed; fig 1), and cords pass through the shell opening at the second opening.

Regarding claim 5, the limitations claimed are as discussed above.

3. Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Brownlie et al. US Pat. 4,984,982.

Brownlie teaches a socket assembly with a cord sorter, comprising:

a multi-socket unit (please refer to fig. 1) having a plurality of sockets 34; and

a sorter 86 constructed at the front of the socket unit for collecting cords engaging with the sockets.

Regarding claim 3, the sorter is a curved cantilever bar 108. The cantilever bar includes a fixed end directly rooting at the multi-socket unit, a cantilever beam and a free end.

Regarding claim 6, the limitations claimed are as discussed above.

Allowable Subject Matter

4. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 7 through 10 are allowed.

Art Unit: 2832

Claims 4 and 7 recited an upper half shield, a lower half shield and an elastic element forming a sorter. Claimed sorter structure in claim 4 or 7 is neither disclosed nor suggested by the prior art of record.
